

RECAT DUBAI International airport

Presented by

Roberto Ghidini **DANS** Airspace Specialist

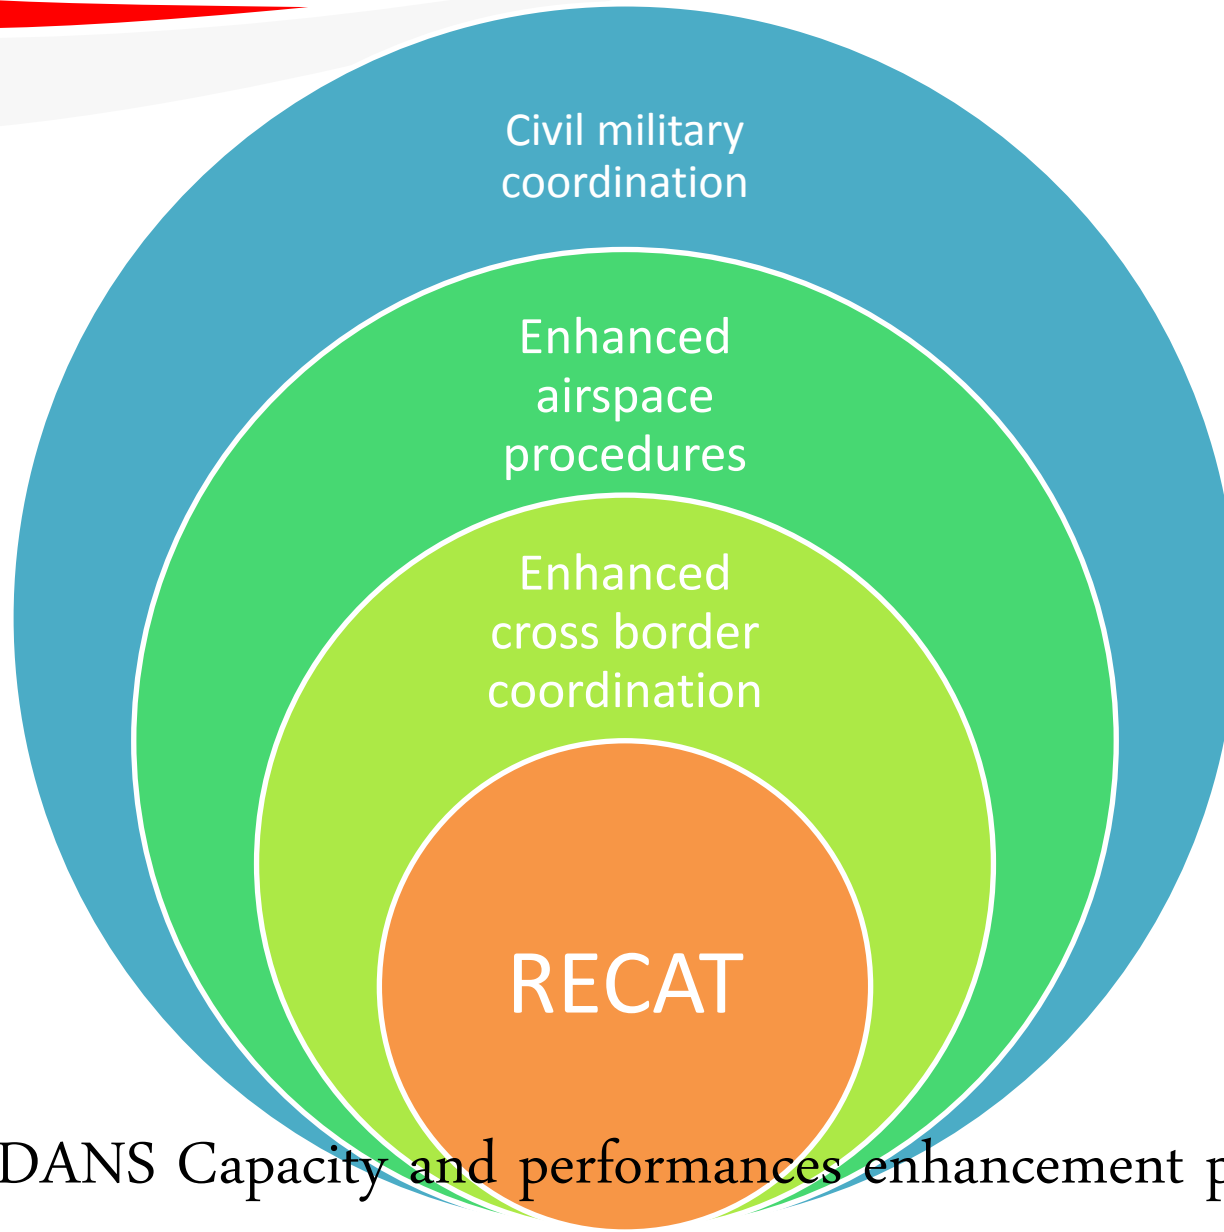

Foreword
Why RECAT
The project
Implementation Plan
Dubai Challenge

Some numbers about Dubai international:

- 1100 movements a day in 2013
- 1300 movements a day expected in 2015
- 1800 movements a day expected in 2020
 - 60% of Daily movements are heavy/Super
 - percentage is expected to be maintained in 2015 but exceeded by 2020

DWC operations increasing drastically

Why RECAT

DANS Capacity and performances enhancement plan

The project

Feasibility phase

theoretical capacity assessment

What "version" fit better with Dubai fleet

Technology enhancement

Internal and external brainstorming

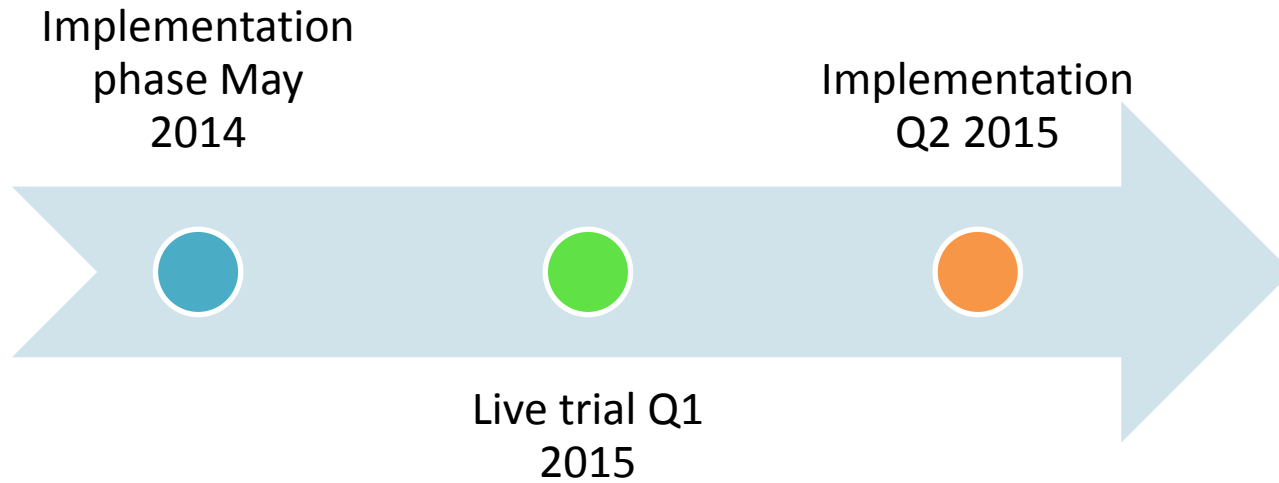

Safety case

EASA and GCAA working agreement

training plan

Data collection

Implementation Plan

RECAT Implementation high level timescale

Dubai challenge

Thank you
